

The Divisibility Rule For TWO Worksheet

By Janine Bouyssounouse

How can you tell if a number is divisible by two?

Check to see if it is an **EVEN** number.

Look at the last digit to see if it is a 0, 2, 4, 6 or 8.

If it is, then the number is even.

Example: The last digit in 176 is a six, so it is even and divisible by two.

Example: The last digit in 641 is a one, so it is *not* even and is *not* divisible by two.

Practice Problems: Circle YES if the number is divisible by two and NO if it is not divisible by two.

1.	67	Yes or No
2.	34	Yes or No
3.	5	Yes or No
4.	1970	Yes or No
5.	8	Yes or No
6.	99	Yes or No
7.	38	Yes or No
8.	203	Yes or No
9.	8934	Yes or No
10.	12	Yes or No

11.	73	Yes or No
12.	9	Yes or No
13.	46	Yes or No
14.	54	Yes or No
15.	562	Yes or No
16.	3978	Yes or No
17.	10	Yes or No
18.	555	Yes or No
19.	27	Yes or No
20.	736	Yes or No
