

## Protractor Practice

Please measure each of these angles with a protractor. Do not assume that all of the angles will be common angles.

Please draw and label the following angles with the measures listed.

$$\angle S = 25^\circ$$

$$\angle GEH = 65^\circ$$

$$\angle M = 170^\circ$$

$$\angle NOP = 90^\circ$$

$$\angle L = 105^\circ$$

$$\angle RST = 135^\circ$$
